GREENCASTLE, INDIANA, MONDAY, OCTOBER 6, 1890.

PRICE THREE CENTS

ALL READY TO START

The Presidential Party Coming Westward.

EN ROUTE TO KANSAS CITY.

Time Table for the Entire Journey and the Places at Which He Will Stop—The Return Trip Not Yet Fully Decided Upon—He Will Be Absent from Washington About Eight Days.

WASHINGTON, Oct. 6.—President Harrison will leave Washington to-day for his western trip, to be absent eight days. The presidential party will consist of the president, Secretary Tracy, Marshal Randall, Capt. Meredith, Secretary Halford, Mr. Tibbitts, the executive mansion stenographer, and G. G. Bain, representing the United Press. A representative of the Associated Press will join the party at Cincinnati.

The special train, in charge of Charles R. Bishop, general eastern passenger agent of the Chesapeake and Ohio railway, who will accompany the party during the entire journey, will leave at 11:30 a. m., via the Chesapeake and Ohio road for Cincinnati. Arriving at Cincinnati early Tuesday morning, the party will leave at 8 a. m., and make short stops at various points between Cincinnati and Danville, Ill., not heretofore announced. The train will arrive at Lawrenceburg, Ind., at 8:40 a. m., North Vernon, 10:15, Seymour, 10:40, Mitchell, 11:35, Washington, 12:40 p. m., and Vincennes, 1:30 p. m. Thence over the Evansville and Terre Haute road, arriving at Sullivan at 3 p. m., Terre Haute, 4 p. m., Hillsdale, Ill., 5:25, Cayuga, 5:55, and Danville at 6:30 p. m.

From Danville the party will go over the Indianapolis, Bloomington and Western road to Galesburg, Ill., where they will arrive 9:50 Wednesday morning. From Galesburg to Ottumwa, Iowa, and westward to Kansas City and return to Washington, the itinerary of the trip outlined in these despatches two days ago will be adhered to. It is not positively decided yet whether the president will on his return trip remain in St. Louis until late next Saturday night, but if train arrangements can be made to bring him to Indianapolis early on Sunday morning, the party will not leave St. Louis until 1 p. m. that night. The president and party will travel the entire journey in an elegant hotel car furnished by the Chesapeake and Ohio railway. Portions of the journey will be made as a special train and other portions with the special car attached to regular express trains.

STRIKE AGAINST NEGROES.

Race and Labor Trouble on the Houston and Texas Central Railway.

CHICAGO, Oct. 6.—A special to The Tribune from Houston, Tex., says: The Houston and Texas Central railway has employed negro switchmen in the yards for several years. About two weeks ago a demand was made for their removal, the places to be filled by whites. The demand was refused, and the firemen all struck. Grand Master Wilkinson has been sent for and has been in the city two days, trying to adjust matters amicably, but without avail, as the officials of the Central are firm in their position, arguing that if the colored men are good enough to sit in the councils of the Knights of Labor, they should be good enough to work with.

Grand Master Wilkinson has wired to all members of the executive council of the Railway Federation which recently met in Terre Haute, to come to Houston at once and the impression is general that a strike is imminent. The Southern Pacific may also be involved, as both roads are in the Huntington system.

Heavy Shipments of Barley.

OSWEGO, N. Y., Oct. 6.—The harbor is full of barley-laden vessels from Canada, about 300,000 bushels being afloat. The total importation of barley at this port for the past thirty-five days has been 1,800,000 bushels. Twenty-seven thousand dollars in duties were collected at the customs house Saturday night. Every available craft was pressed into the service, to get the grain here in time. The last ones to leave Canada were instructed to return to Canada with their cargoes if they could not make Oswego by midnight Sunday night.

Double Murder for Three Dollars.

BELLEVILLE, Ill., Oct. 6.—While out hunting yesterday afternoon, seven miles east of this city, on the Masouth road, Lorenz Karis and Lorenz Muetzen came across the senseless bodies of a negro man, aged 70, and his daughter, 40, with their throats cut from ear to ear. The woman revived sufficiently to tell a terrible story of the crime. She said that they were attacked while sleeping by an unknown man, who cut their throats and robbed them of all the money they had—\$3. Both father and daughter died shortly after being discovered.

Standing by Their Pastor.

PITTSBURG, Oct. 6.—A special to The Times from Scranton, Pa., says: Last night the Plymouth Congregational church at a members' meeting, attended by over 500 of the congregation, unanimously refused to accept the resignation of the Rev. Peter Roberts, their pastor, who was convicted on Tuesday of a breach of promise preferred by Miss Annie Husaboe, and to whom the jury awarded \$3,000 damages. Very few of the members were absent from the church.

An Indiana Giant.

MARTINSVILLE, Ind., Oct. 6.—John H. Craig, of Danville, Hendricks county, probably the heaviest man in the world, is in the city. Mr. Craig's present weight is 907 pounds. He stands six feet five inches in his stocking feet. He is a fluent conversationalist, and is a member of all the secret societies of the town in which he resides.

A BIG MORTGAGE RECORDED.

Over Twelve Million Dollars Loaned on Five Hundred and Twelve Miles of the Louisville, New Albany and Chicago Railroad by the Central Trust Company, of New York—Other Dispatches.

LEBANON, Ind., Oct. 6.—There has been received for record in this county a \$12,800,000 mortgage, at a rate of 5 per cent. interest, given by the Louisville, New Albany and Chicago railway to the Central Trust company, of New York, and John H. Stotzenberg, of New Albany, Ind.

It is given on 512 miles of road at \$25,000 per mile, which includes all of their main lines, and Bloomfield and French Lick Springs extension. The loan was made upon 32,641 affirmative votes of shareholders, which was more than a majority.

The company is to pay off outstanding loans against them for \$10,000,000, that were given in 1880 at a rate of 6 per cent. interest, and to use the surplus to improve the condition of the road, including equipments, buildings and facilities.

Farmer Killed at a Railway Crossing.

LOGANSPORT, Ind., Oct. 6.—The fast express on the Pan-Handle, due here from Chicago shortly after noon Saturday, struck a carriage containing Thomas Burton and a 1-year-old child, at Royal Center, in this county. Burton was hurled seventy-five feet and instantly killed, his head being crushed. The child was thrown almost as far, but is still alive and does not seem to be badly injured. One horse attached to the carriage was killed, the other badly injured. The buggy was crushed to splinters. The accident happened within the limits of the town, and the buildings in the train, which does not stop there, from view. Burton was a prosperous farmer of this county, and was about 30 years of age.

Postoffice Robbed by Masked Men.

FORT WAYNE, Ind., Oct. 6.—The post-office at Heller's Corners, nine miles north, was robbed Saturday night by three masked men, who forced the postmaster's wife to procure for them the money. Adjoining the postoffice is the residence of Postmaster Hathaway. Two ruffians appeared at his bedside, covering both Hathaway and his wife with their revolvers. Mrs. Hathaway was directed to get up and go to the postoffice for the money. One of the ruffians accompanied her. She found \$25 which she handed over with trembling hands. She was then permitted to return to her bed where her husband was covered by the pistol of the other fellow. The men then left and have not been arrested.

Telegraph Operators Get an Increase.

TERRE HAUTE, Ind., Oct. 6.—It is learned on reliable authority that as a result of the conference between President Mackey and the men on his road, assistant telegraph operators will be placed at several stations, which will make the work lighter, and a general increase of from \$10 to \$15 a month was granted the operators, while the office clerks will be given a substantial increase as well. No operator will be paid less than \$40 per month. The increase places the men on an equal standing with the best paid men on any road. The Terre Haute wage question will be adjusted to-day.

Fatal Result of an Accidental Shot.

MARTINSVILLE, Ind., Oct. 6.—George Strader, who was accidentally shot Saturday while out hunting with his friend, John Smith, of Brooklyn, died at 6 o'clock last night. The attending physician states that death was caused by the shock to the nervous system and not from the wound. Young Smith was to have married a sister of Strader on Sunday next, and is almost crazed over the sad affair.

Packing Houses Burned.

FORT WAYNE, Ind., Oct. 6.—The total loss is \$23,000 on the packing houses of Lickau Brothers, which were destroyed by fire Saturday morning. Insured for \$19,500, as follows: Merchants', \$2,275; Milwaukee Mechanics', \$2,275; Farmers', \$1,075; Pennsylvania, \$2,275; Phoenix, \$4,000; Sun, \$2,500; Newark, \$1,500; American, \$2,000; Michigan Fire and Marine, \$2,000.

Alliance Candidates Indorsed.

RISING SEN, Ind., Oct. 6.—The joint senatorial and representative convention of Dearborn, Switzerland and Ohio counties was held here Saturday, and the Farmers' Alliance candidates for joint senator and representative were indorsed, viz.: For senator, John W. Colfield, of Ohio county; for representative, Edward A. Hall, of Switzerland county.

Insurance Agent Arrested.

TERRE HAUTE, Ind., Oct. 6.—William M. Castleman, agent of the Life Insurance Company of Virginia, was arrested by the police on charges preferred by the officers of the company that Castleman had embezzled funds in his hands. He is now in jail, having failed to procure bond. Castleman recently had similar trouble at Evansville.

Hon. Peter Kiser Drops Dead.

FORT WAYNE, Ind., Oct. 6.—Hon. Peter Kiser, who served two terms in the Indiana legislature, dropped dead on Columbus street Saturday afternoon, of apoplexy. He was 53 years of age, and was widely known throughout the state.

Boy Stabbed in the Back.

SHELBYVILLE, Ind., Oct. 6.—Joseph Dickman, a lad about 16 years old, was badly stabbed in the back Saturday evening by a boy named Letsinger, as the result of a quarrel.

Take the DAILY BANNER AND TIMES.

Golden Wedding.

A half century is a long period in one's life, especially a married life, and but few couples survive that period in connubial bliss, but such has been allotted to Mr. and Mrs. Christian Landes. On the 1st inst. a number of their children, grand children and a few friends assembled at their residence, near Limesdale, unheralded, bringing with them many of the "good things of life," and prepared a princely feast which would have done credit to the table of a king. Having partaken liberally of the dinner, and having a grand old time, each guest departed for home feeling happier for having been there. Three of their children and one grandchild are in Montana, one son in Washington and one grandchild in Kentucky. Had they all been present, the occasion would have been more pleasant. Mr. Landes is in his 77th year, and Mrs. Landes in her 78th year. The former is quite frail, while the mother is in unusual robust health for one of her age. Mr. Landes is one of the first subscribers to the BANNER, and has taken it continuously since its first issue.

A Scrap of Paper Saves Her Life.

It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could live only a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her, she bought a large bottle, it helped her more, bought another and grew better fast, continued its use and is now strong, healthy, rosy plump, weighing 140 pounds. For fuller particulars send stamp to W. H. Cole, Druggist, Fort Smith. Trial Bottles of this wonderful Discovery Free at Allen's drug store, Albert Allen, prop. 4

Plant Trees.

The Western farmer with plenty of land can make no better investment than the planting of a timber lot of ten to twenty acres, so located as to serve as a wind break while the timber is growing. Black walnut, catalpa, butternut and the chestnut are among the most valuable trees to plant. They should be thickly planted in rows, and afterward thinned as occasion requires. In the long run the carefully cultivated timber lot will be the most valuable acres on the farm. Now is the time to save the nuts for planting.

Saloon Bravely.

Mike Maloney's saloon in South Greencastle was the scene of a lively scrimmage, Saturday night, between Lely Runion, of Mt. Meridian, and Columbus and Milt. Crawley, of the South End. Runion was assaulted with beer glasses in the hands of the Crawley brothers, and his injuries are of a character that forbade his removal to his home. Whisky was at the bottom of the disturbance.

Says the Southern Medical World: "Mother's Friend" is growing in favor throughout the South, and is highly recommended by physicians. We consider it indispensable to those who know they must pass through the ordeal of childbirth. Write Bradford Reg. Co., Atlanta, Ga., for particulars. Sold by all druggists.

Colored Boys on a Lark.

Two colored boys, named John Bellamy and James Churchill, took Mike Maloney's horse and cart Sunday morning for a ride to the country. They went as far as Mt. Meridian, from which point Bellamy returned to the city, and was arrested by Policeman Ashley. He was locked up for trial. The boys are 12 and 14 years of age.

The annual meeting of the North Western Branch of the Women's Foreign Missionary Society will be held in Meridian street, Indianapolis, Tuesday, Wednesday, Thursday and Friday of this week. The ladies of College Avenue church are especially urged to be present on Thursday. All attending the meeting must procure from the Local Agent a Central Traffic Certificate to be signed by him, showing that full fare has been paid to the place of meeting. This must be countersigned by the secretary of the convention and will be honored by the Indianapolis agent with one-third rates returning.

Hick's Weather.

This is what Hicks predicted: "On the 21 of October there will be more or less storm disturbances, which may continue on the 3d and 4th, but the first clearly defined period will be from the 7th to 11th with central days on 8th, 9th and 10th. Frost and some freezing will follow the autumnal storms at this time."

SHAM DEMOCRACY.

Its Alliance With the Anti-American Element.

THE OVERSHADOWING ISSUE

The Bennett Law Must Be Maintained—A Remarkable Article From the Leading Democratic Organ of the Northwest.

Chicago Herald, Oct. 4: A month of public and private discussion has done nothing to weaken and everything to confirm the opinion repeatedly expressed in these columns that the Democrats of Wisconsin blundered outrageously in taking up the fight of a parcel of foreign know nothings, meddlesome clergymen, and characterless politicians in Milwaukee against the Bennett law. It has done more. It has established the conviction in the minds of honest men and true Democrats that, as the issues are now outlined in that State, the Democratic ticket deserves to be beaten and that it will be beaten.

Democracy in Milwaukee is at present bossed and bullied by a few violent young demagogues and foreign know-nothings, who, anxious only for office and plunder and power, seem to have forgotten that Wisconsin is one of the United States of America, and that the Democratic party, for which they assume to speak, is not in some manner the instrument of an alien civilization. They have made a mistake. This is America. The Democratic party does not draw its inspiration from continental Europe, and it never did. It is American through and through. It has no counterpart anywhere else on earth, and the presumption of a few foreign fanatics in Milwaukee, assisted by a few unworthy Americans, that they can give instruction to true Democrats, is an exhibition of insolence that is not to be borne.

The honest Democrats of the State of Wisconsin have been victimized by the scoundrel Democratic leaders of Milwaukee. To enable the latter to seize the county and city offices with the assistance of a misguided foreign vote the entire party throughout the State has been falsely placed in antagonism to principles that are vital to American liberty and American nationality. It matters not what fine-spun arguments may be advanced to prove this, that or the other thing about the opposition, the fact remains that an American party is asked by turbulent and brainless demagogues to assail the principle that the State has a right to educate its youth and if need be, to compel instruction in the English language. Unfortunate as the issue is, it has been raised, and cannot be settled until it is settled right. The language of this country is English. It is to remain English, no matter what race or what church may assail it. The Great Charter was written in English. The Declaration of Independence was written in English. The Constitution of the United States and the Bill of Rights were written in English. The Emancipation Proclamation was written in English. We need make no apologies to any power on earth for insisting, now that the right has been denied, that every American citizen shall understand English. From that rock no true Democrat should fly.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. SUNDAY SERVICES

At the County Hospital—"The Poor Ye Have Always Among You."

The Sunday services at the County Hospital are growing in interest both with the inmates and the outside public. They were but recently inaugurated by the Humane Society of this city, and have already been productive of good results.

Superintendent Ogg, of the city schools, conducted the song service Sunday afternoon, being assisted by a choir composed of the following named ladies and gentlemen:

Misses Laura Eads, Grace Pulse, Lora Gerkin, Bessie L. Hammond, Mrs. R. A. Ogg, Messrs. Charles W. Minor, and W. P. Burris.

Mr. and Mrs. T. C. Grooms, Mr. Hillis, Mr. Chapin, Miss Hattie Ward and ye editor accompanied the choir.

The commissioners heartily endorse the work and urge its continuance. Those in charge, Mr. and Mrs. Shop-taugh, cordially welcome those who attend.

The meetings are held every alternate Sunday in the afternoon. The following program was observed at the song service on yesterday:

I heard the voice of Jesus say,—Choir.

MONDAY, OCT. 6, 1890.

ONLY four more weeks till the election.

THE more the Democratic land-tax scheme is advocated by that party, the more unpopular will it be with the farmers of Indiana.

It will be a proud day for the good county of Putnam when she sloughs off Bourbonism and keeps step to the music of a progressive Republicanism.

THE last Democratic "trust" to turn up its toes to the daisies was the Louisiana Lottery. The Republican party is the uncompromising foe of trusts, and the L. L. was about the worst of the entire batch.

We believe in giving the devil his due. Bad as was the last Democratic Legislature, it gave the people of Indiana the Australian ballot system, and thus insured the election of a Legislature that will restore the State credit and retrieve the evil legislation of its predecessors.

If Senator Voorhees has performed one act of substantial benefit to the people of Indiana during his thirty years' service, the fact has not been brought to public notice. It would be far better for him to point out something of that kind, if he can, than to roam around the State on a crusade against the doctrine of protection of which he has been at times a most pronounced advocate.

Don't forget the home-seekers' excursion S. S. on Oct. 14, for all points in the West, North and South. Half fare rate.

DR. TALMAGE IN NEW YORK.

Arrangements Made to Have Him Preach in the Academy of Music Sunday Nights.

Several engagements for sacred concerts on Sunday evenings at the Academy of Music, New York, were canceled by the management, as the house has been leased to The Christian Herald for the remaining Sunday evenings of the present year.

Considerable speculation was indulged in as to the object of this move on the part of a religious journal. A reporter called at the offices of The Christian Herald, at the Bible house, and saw Mr. Sandison, the business manager, in regard to the matter.

"We have nothing more or less in view," said Mr. Sandison, "than to afford New York audiences convenient opportunity to hear Dr. Talmage, who has preached nearly everywhere except in this city. When we first learned that the Tabernacle trustees had decided not to resume evening services in Brooklyn until the completion of the new Tabernacle we determined to persuade him to come over to New York for whatever number of Sunday evenings he may have at his disposal. We found it very easy work. The doctor was glad of the opportunity and promptly embraced it. He positively refused to accept any compensation, and, moreover, agreed to induce Professor Eyre Brown, the Tabernacle organist, and the cornetist, choir and ushers of his congregation to volunteer their services on these occasions. The expense for the academy—about \$3,000—will be provided for by The Christian Herald, and the entire plate collections and whatever other surplus may arise from voluntary contributions will be distributed among the hospitals of New York city without regard to religious preference.

"The trustees of the Tabernacle are delighted with this arrangement, as they realize that while not at all interfering with the morning services, which will be continued at the Brooklyn Academy of Music, it affords to New Yorkers a more convenient opportunity than any they have ever had of hearing Dr. Talmage without crossing the bridge."

Where Doe Birds Come From.

"Doe birds come from Kansas and Texas," said R. B. Shiner, of No. 300 Washington street, who has bought and sold game in this city for many years. "Some people say they are a species of plover, but I don't think they are. They have only been in the market in recent years. At first there was a great demand for them, especially in Boston, but they are not a bird to hold the popular favor long like the woodcock or quail. The meat is dark and coarse. At first they sold at wholesale for \$4 and \$5 a dozen, while at present I have some on hand that I have had for two years, and I would be glad to let them go at \$2; in fact, I would take \$1. I do not know of any other name for them except doe birds. Their feathers are grayish in color, like a plover somewhat. A pair of them will weigh five pounds if fat."

"I have looked in Audubon for the history of doe birds," said a member of the game firm of A. & E. Robbins, Fulton market, "and I failed to find a line about them. I think myself they are a species of prairie plover. They appear on the plains of Texas and Kansas in March thin and unfit for food. In April they disappear, to reappear in great numbers in August as fat as butter. Where they go in the meantime nobody seems to know. People hunt them in wagons on the plains. A hunter on foot cannot get within gunshot of them, but two or three hunters in a wagon can drive into the middle of a flock of them. They are so fat at this time that the oil trickles in little streams out of the shot holes in them. A pair of doe birds served up by a 'swell' restaurant uptown will cost the epicure \$1.50."—New York Tribune.

Objections to Cable Roads in New York.

The proposed use of cable roads on Broadway and other streets of New York where blockades are frequent is regarded by some engineers as doubtful in point of practical success. The frequent stopping and starting which will be rendered necessary by the conditions of traffic below Canal street will enormously increase the wear and tear upon the cable, which is already the most expensive feature of cable road operation. The massing of a large number of cars at one point and the consequent long stretch of idle cable, caused by a blockade of even ten minutes' duration, will increase the wave like action of the cable, which causes the car to surge forward rapidly for a second or two and then to slow down in the manner familiar to passengers on cable roads.

Another weakness of the cable system—the inability to make up lost time—will also be accentuated. If a car is caught in a blockade at the postoffice and detained fifteen minutes the last car through before the blockade occurs will have got up to Grace church by the time the blockade is broken, and the intervening mile and a half of road must remain bare of cars until the car house is reached and extra cars put on, for it is impossible for the one delayed to run any faster than the cable and gain on its predecessor. A partial remedy for this exists, however, in the double cable system, in which the extra "string," as the gripmen call it, runs at a higher rate of speed.—New York Journal.

How to Find the Cow in Butter.

The following method of discovering oleo in butter is proposed by Dr. Taylor, of the department of agriculture: Dissolve in 30 cubic centimeters of petroleum benzine 140 grains of a mixture of oleo and butter. Heat slightly to secure a perfect solution of the fats. Caseine and animal tissues may be readily removed by passing the liquid while warm through fine muslin. Fill a test tube with the solution and place it in ice water. In about twenty minutes the oleo fat will separate from the butter fat and fall to the bottom of the tube, being insoluble in cold benzine, while the butter fat will remain in solution in the benzine.—New York Journal.

Disinfecting Candles.

Of late, owing to its germicidal power, the vapor of bromine has come into use as a disinfectant. One of its compounds can be dissolved in any desired quantity in the fat or wax of candles before they are run into the molds. The result is a candle or night light, which in shape and appearance resembles an ordinary candle, but differs from it in that when burned it produces free bromine vapor, at the same time emitting the usual amount of light. Hygienic iodine night lights are also made, which on burning liberate iodine vapor in any required quantity, in the same way as the bromine lights liberate bromine.—New York Commercial Advertiser.

The gold pen with which Oliver Wendell Holmes has written for twenty-five years is in perfect condition, and is highly cherished by its owner. A tattered and torn old note book, with limp covers, nearly as old as the pen, is another of the poet's treasures, and has long been the repository of his thoughts and confidences.

There is one shoe store in Greencastle that does business on straight business principles. This store carries the largest stock of shoes and has more capital invested in the business than all the others combined. One distinctive feature about this firm is the fact that it always pays cash for its stock, having discounted every bill since it started into the business twelve years ago.

All goods are bought directly of the manufacturers at their lowest cash prices and sold for their cash value. You can purchase your shoes at this store with perfect confidence, knowing that you will get those that are good and that you run no risk of paying more for them than they are worth and without that disagreeable accompaniment (dickering over the price) so common at other stores.

All prices are marked in plain figures and are a constant challenge to other dealers to equal them. If it is good reliable footwear that you want, then by all means go to

Rattlers Charmed by Music.

Paul Keister, a local musician, played Saturday evening at a dance at a farm house back of Yulupa mountain. Next morning he started for home. At one point the path winds around a sharp and narrow spur of the mountain. Keister had reached this point when his attention was attracted by the warning clatter of a rattlesnake. He saw a formidable rattler in his path and took to his heels. A few feet further along still another rattler rose up before him. There was not sufficient room to pass the snakes without running the risk of being bitten, and the frightened musician backed up against the ledge and eyed the advancing reptiles.

It suddenly occurred to him that in India magicians charm snakes with music, and pulling out his violin he began desperately to play. The snakes gradually uncoiled and glided slowly toward the player. This was anything but pleasant to Keister, who kept sawing away at his fiddle, trying to devise meanwhile a scheme for escaping.

Closer and closer came the snakes, and faster flew the bow over the strings as Keister's nerves quivered and shook. At last the snakes reached a point within two feet of the terrified fiddler, and winding themselves up they lifted their heads closely together and fixed their shining eyes on the musician. Keister's nerves were now utterly uncontrollable.

With a yell he grabbed his fiddle by the neck and brought it down with crushing force on the heads of the snakes. The blows stunned the reptiles, and Keister kept hammering away until they were dead. He broke his beloved violin into splinters, but he saved his life. The snakes measured six and seven feet respectively. One carried ten rattles and the other seven. —Kansas City Star.

Idle Hours.

When a man is apparently idle it may be that his time is most profitably employed. "This were some time a paradox," but he who reflects upon it will see its meaning. All hard workers learn sooner or later the truth that recreation is an absolute necessity for tired bodies and tired minds.

The idle time of Bacon, Pope, Cowper and many another famous writer has been spent in gardening. It is said that market gardening is the one passion of Blackmore, the English novelist, and that he spends the money earned by his pen in carrying out this dearly beloved hobby. And who could wish it otherwise? Doubtless the poetical spirit which pervades his work is that caught from long days spent in homely tasks in the garden and field. "Some men dig up worms from the earth," says an old proverb, "others uncover truth."—Youth's Companion.

LONDON GAS MEN.

Three Thousand of Them Assembled at Woolwich.

LOCKOUT OF UNION FEARED.

They Adopt Resolutions Deprecating the Action of the Company in Erecting Barracks and Calling on the Military.

Various Other Foreign News.

LONDON, Oct. 6.—Three thousand gas workers met at Woolwich yesterday and formally declared that the suspensions of the Gaslight and Coke company that they intended to strike were absolutely unfounded. Resolutions were adopted deprecating the action of the company in erecting barracks for contemplated new employees, and in securing the presence of the military, in anticipation of a strike. The truth is that the men are afraid that these preparations are for a different purpose than is announced. They are apprehensive lest an attempt is about to be made to force all union men to leave the company's employ, and thus break up the organization.

The Observer, in an article on the McKinley tariff, expresses the hope and the belief that the measure will by its stimulus to American manufactures, attract large numbers of the unemployed workmen from England to America, thus affording partial relief to the labor market here.

The Pope Perplexed.

LONDON, Oct. 6.—Advices from Rome state that the British ministry through its friends in that city is bringing all the influence possible to bear upon the pontiff against the bestowal of a cardinal's hat upon Archbishop Walsh of Ireland. The effect of these appeals is not known, but it is said that the pope is deeply perplexed, as between the British government and the Irish people.

It is claimed, on behalf of the British government that the elevation of the archbishop at this time would be an expression of approval on the part of Rome of the prelate's course in sanctioning the National league agitation and the plan of campaign, which have heretofore been condemned by the holy see. It is rumored in Rome that the opponents of Archbishop Walsh have obtained an assurance that he will not be promoted for some time to come, if ever.

Two More Letters from Jack the Ripper.

LONDON, Oct. 6.—The police have received two more letters signed by Jack the Ripper, and announcing the intention of that bloodthirsty unknown to commit fresh murders and mutilations. The police believe that the letters are genuine. Vigilance committees are being organized in the Whitechapel district, in expectation of a renewal of the Ripper's depredations. The police force has also been increased.

Revolution Apprehended in Hayti.

LONDON, Oct. 6.—A despatch from Kingston, Jamaica, represents that another revolution is apprehended in Hayti; that the financial condition of the republic is unsatisfactory, and that the exports show an alarming decrease of trade, owing partly to the decrease of production during the recent warfare. Cooies are to be imported to cultivate neglected plantations.

Expelling the Jews from Russia.

LONDON, Oct. 6.—Several wealthy Jewish merchants of Odessa have been ordered by the authorities to settle up their business within four weeks and leave Russian territory. No charge is made against them except that they are Jews. The trade of Odessa is largely in Jewish hands, as is indeed that of most Russian cities.

Labor Troubles in Australia.

LONDON, Oct. 6.—A despatch from Melbourne, Australia, represents that the strike there is still in progress, and no settlement has been arrived at, though the number of non-union laborers is increasing. The strikers telegraph asking British workmen not to believe vague rumors that funds are required to insure success.

People in Ireland Starving.

LONDON, Oct. 6.—Several deaths are reported from the Island of Achill on the west coast of Ireland, owing to a lack of proper food and indirectly to the failure of the potato crop. The condition of the inhabitants on this and other islands is being investigated by order of the government, but no relief has so far been extended.

Cologne's Ignorant Police.

LONDON, Oct. 6.—The German ambassador to the court of St. James has expressed the regret of his government for a mistake made by the police at Cologne in arresting two Englishmen who were engaged in sketching a church in the outskirts of that city, and who were supposed to be French spies sketching a fort.

STRIKE DECLARED OFF.

A Long and Bitter Struggle in New York Finally Ended.

BINGHAMTON, N. Y., Oct. 6.—The long and bitter struggle between the cigarmakers of this city and their employers ended last night. The men held a meeting yesterday evening and voted to declare the strike off. The fight has been the most disastrous ever experienced here. Two factories have been compelled to make assignments, and on the other side there has been much want and suffering among the families of the 3,000 men called out, many of them having been compelled to ask aid from the poormaster.

It is fifteen weeks to-day since the strike was ordered. Some of the shops have been able to procure nearly all the men they need, and it will be difficult for many of the strikers to obtain employment here. It is reported that the conspiracy cases brought by the manufacturers against the leaders of the strike will be vigorously prosecuted.

Mail Department Changes.

WASHINGTON, Oct. 4.—Capt. J. E. White, superintendent of the Chicago division of the railway mail service, has been appointed general superintendent of the service in place of J. Lowrie Bell, who becomes second assistant postmaster general. Louis L. Troy, assistant superintendent of the Chicago division has been made superintendent of the division. The postmaster general has issued the order placing the railway mail service under the supervision of the second assistant postmaster general.

TRAIN ROBBERS CAPTURED.

The Two Robbers of the Missouri Pacific Train Locked Up.

LEXINGTON, Mo., Oct. 6.—The Otterville train robbers were captured yesterday at Elmira, near here, and are now in jail in this city. Detective Thomas Furlong has been quietly working on the case since Aug. 16, when a Missouri Pacific train was held up by masked men in Robbers' Cut, near Otterville. Last evening, in company with deputies, he proceeded to the house of Horatio S. Hines, a farmer near Elmira, and arrested him and his son, Frank Hoffman, a country sport and all-round tough.

The men were securely handcuffed and brought to this place. It was at first said that five men were engaged in the robbery, but it now seems that Hines and Hoffman, unaided, held up the train. While one covered the engineer with his revolver the other forced Express Agent Avery to surrender to him two packages supposed to contain money, but subsequent developments showed that these amateur bandits had made a water haul as the packages contained less than \$100 worth of jewelry and railway vouchers.

A BRIDE SUICIDES.

A Young Girl Takes Her Own Life a Few Hours After Her Wedding.

REDWOOD, Cal., Oct. 6.—A highly sensational suicide occurred here Sunday morning. Saturday night Louis Eslinger, aged 22, was married to George Wehrlein, at the residence of her uncle, C. Groner. At 4 o'clock Sunday morning she and her husband went to their new room and she refused to allow him to enter her room and he was obliged to return to Mr. Groner's house. At 6 o'clock he returned to his house and found his wife dead in bed. In the bed were a few grains of a crystal substance, the nature of which has not yet been ascertained. She left no word of explanation. Miss Eslinger had been in Redwood for six weeks and had been engaged to Wehrlein only four weeks. It is surmised that a former lover in Portland, Ore., had proved false to her.

Had No Use for a Bank.

ST. PAUL, Minn., Oct. 6.—Steve Zenga, a miser, living on the Missouri river near Chamberlain, S. Dak., discovered yesterday that he had lost a fortune in a peculiar manner. It had been his custom for several years past to secrete his surplus cash in a cellar under his house instead of placing it in a bank. The pile had gradually accumulated until the total reached over \$50,000, all in greenbacks in denominations of from \$1 to \$500. On visiting his secret hoard yesterday he found that rats and mice burrowed in an chewed up the bills until they were entirely worthless.

Arrested for Embezzlement.

NEW YORK, Oct. 6.—Ernest Riall, who was arrested at the St. James hotel yesterday on a telegram from Omaha, Neb., for embezzling \$18,000 from Richard J. Straight by bogus land transactions, was arraigned in police court Saturday morning. Mr. Straight was present and said he had no desire to prosecute Riall and that he had made a mistake in causing his arrest and he could not bear the expense of taking the prisoner back to Omaha for trial. Riall was discharged.

Good Showing for Augusta, Georgia.

AUGUSTA, Ga., Oct. 6.—The Chronicle's trade review of Augusta for the past year shows that Augusta's cotton trade spun 90,000 bales of cotton, producing \$5,000,000 worth of products. Cotton receipts were over 300,000 bales; fertilizers manufactured and sold \$3,000,000; wholesale and retail grocery trade, \$30,000,000; total business, \$70,000,000. Twenty-six miles of electric railroad have been built and are in operation.

Accident on the Race Track.

CANTON, O., Oct. 6.—During the running races at the Marlboro fair Saturday, Bismarck, a fine stallion owned by William Meyers, collided with a buggy, which was being driven across the track. The shaft of the buggy penetrated the horse's breast, killing him instantly. Meyers, who was also driving, was thrown and trampled upon. He is still unconscious and will probably die. Bismarck was valued at \$5,000.

Preparing for the President.

GALLESBURG, Ill., Oct. 6.—Extensive arrangements have been completed for the reception of President Harrison when he arrives here next Wednesday. A message received from Governor Fifer yesterday says that Gen. Vance with Battery D, has been ordered here. THE GREAT SOUTH AMERICAN NERVE TONIC

Stomach and Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years.

It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk.

This wonderful Nerve Tonic has only recently been introduced into this country by the Great South American Medicine Company, and yet its great value as a curative agent has long been known by the native inhabitants of South America, who rely almost wholly upon its great medicinal powers to cure every form of disease by which they are overtaken.

This new and valuable South American medicine possesses powers and qualities hitherto unknown to the medical profession. This medicine has completely solved the problem of the cure of Indigestion, Dyspepsia, Liver Complaint, and diseases of the general Nervous System. It also cures all forms of failing health from whatever cause. It performs this by the Great Nerve Tonic qualities which it possesses and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nerve Tonic as a builder and strengthener of the life forces of the human body and as a great renewer of a broken down constitution. It is also of more real permanent value in the treatment and cure of diseases of the Lungs than any ten consumption remedies ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nerve Tonic almost constantly for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.
